Table of Contents

① Ranking Methodology

The AppliedHE Public & Private University Ranking: ALL ASIA evaluates higher education institutions across six key dimensions. The ranking is developed by AppliedHE Pte. Ltd. (Singapore) and overseen by the independent Ranking Advisory Board (RAB).

Criteria & Weights

Teaching & Learning `30%`

Evaluates quality of education through student satisfaction surveys (20%) and student-faculty ratio (10%).

Institutional Reputation `20%`

Measures peer recognition through nominations from other universities in the region.

Employability `10%`

Assesses graduate employment outcomes through tracer studies or national estimates.

Research `20%`

Evaluates research output via Google Scholar (10%) and Scopus citations (10%).

Community Engagement `10%`

Measures societal impact through student surveys (5%) and media coverage (5%).

Internationalization `10%`

Assesses global diversity via international faculty (5%) and international students (5%).

Data Sources

Institution-Submitted Data

Universities provide verified data on faculty, students, and outcomes

AppliedHE Student Survey

Direct feedback from students on teaching quality and campus life

Research Databases

Google Scholar and Scopus for publication and citation metrics

Peer Nomination Survey

Universities nominate 7-12 institutions they hold in high regard

Note: King Edward Medical University, Lahore is classified as a **Non-Reporting Institution**, meaning this ranking is based on data collected from public sources.

2 Executive Summary

This Executive Summary provides a high-level overview of **King Edward Medical University, Lahore**'s performance in the AppliedHE Public & Private University Ranking: ALL ASIA 2026. It highlights your institution's overall ranking position, key achievements, and performance across the six ranking criteria. The summary serves as a quick reference for understanding your university's standing among Public Institutions across Asia and identifies areas of strength and potential growth.
