3rd Annual BURNCON 2025

INFECTION PREVENTION AND CONTROL (IPC) STRATEGIES AMONG BURNT PATIENTS

INFECTION PREVENTION WORKSHOP

"Innovate & Improve-Smart Strategies for Safer Care"

Objective of Workshop

To equip Burn Hospital healthcare professionals with the knowledge and skills necessary to implement effective infection prevention and control (IPC) practices in their healthcare settings.

Learning Outcomes

1. Understand the importance of infection control in burn units.
2. Discuss standard and transmission-based precautions (Hand Hygiene, PPE, cleaning & disinfection).
3. Discuss the steps of outbreak investigation and management including case studies.
4. Implement care bundles for VAP and CAUTI prevention.

Targeted Audience

Doctors | Nurses | Medical Students

Trainers

Dr. Altaf Ahmed

Head of Infection Prevention and Control PKLI and Research Center, Lahore.

Sameena Parveen
