

IRCOH2026

ONE-HEALTH
NEXUS | Innovations
Biosecurity &
Climate Resilience

AUGUST
17-18
2026

OBJECTIVES

- To advance translational One Health R&D linking research with policy, applications, and community impact
- To connect academia, industry, healthcare, agriculture, environment, and regulators for integrated solutions
- To facilitate commercialization via technology transfer, startups, and industry partnerships
- To address key challenges: Anti-microbial Resistance, zoonosis, food security, climate resilience & biorisk
- To strengthen national and international collaboration through networking and capacity building

PAKISTAN ONE HEALTH UNIVERSITY NETWORK

THEMATIC AREAS

Biomedical Innovation & Disease Surveillance: Including but not limited to Drug discovery, diagnostics & therapeutic approaches, clinical trials, public health, safety innovation & policy

Animal Diseases & Biosecurity: Including but not limited to Zoonotic disease control, microbiology & histopathology, veterinary & wildlife health, biosafety, biosecurity & bio-risk management, sustainable livestock, poultry & aquaculture production for safe food systems

Plant Health & Climate: Including but not limited to Plant health & sustainable agriculture, crop protection, climate & ecosystem health, environmental monitoring

ABOUT IRCOH

Aligned with the theme "One Health Nexus: Biomedical Innovations, Biosecurity & Climate Resilience," the conference explores integrated solutions at the human-animal-environment interface. It promotes interdisciplinary research, innovation, and collaboration to strengthen health security and sustainable ecosystems. The event will be held at the University of Education, Township Lahore, providing a platform for researchers, scientists, policymakers, and students to share knowledge and advance One Health solutions.
